When Sylvia Allen traveled to Uganda, Africa in May, 2003, little did she know how her life would change. She visited the Mbirizi Primary School in Masaka and became "Grandmother" to over 1,000 children, many of whom are orphans of the AIDS pandemic. Sylvia works tirelessly to raise awareness, funds, and the educational standards of her "Grandchildren." Join her!

GREAT NEWS ... THE CLINIC IS DONE!

And, we are almost there ... we have a shortage of some supplies that limits their ability to serve all the potential patients; however, the whole cost is only \$5,000 to bring them "up to speed". If we were going over soon I would provide you with a list and ask you for donations. However, since the summer trip was cancelled and we will not be returning until November (and shipping is IMPOSSIBLE ... it would never get there!) I am asking you for a donation so we can send them the money and they can buy the supplies that will then complete the inventory.

Will you help us? Attached is a form that you can fill out and mail to us (or scan and e-mail if paying by credit card) or call me and I will fill the form out for you.

You can also go to www.Sylviaschildren.org and click on the "donate now" button and look for the line that says medical supplies. You can then pay through PayPal.

Thanks, in advance, for your constant care and concern for these children and their families.

- Sylvia
